Dear Cheryl,

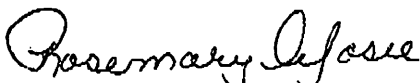

Enclosed herewith please find the attached memo I received from the Gloucester Township Police Department in reference to the OPRA request you made on June 2, 2014. Through your OPRA, you requested the following:

1. Summons issued
2. Police reports related to
3. Audio-Radio Dispatch
4. CAD entry screen shot
5. Any inter office e-mails concerning same information

Related to former Public Works head (Len Moffa) on or about May 26, 2014, as well as any inter-office e-mails concerning same information.

Please note that at this time, I must deny your OPRA request for the reasons cited in the response by Lieutenant Christ Jones. As for any e-mails on the Municipal side, at this time all e-mails concerning same are attorney/client privileged.

Very truly yours,

  
Rosemary DiJosie  
Township Clerk

Pomianek OPRA

To address this,-no cases on or about 5/26. Latest case is 5/13 which I believe she seeks.

1. There has been no summons issued (would be releasable)
2. Police reports are not releasable under title 47 as this is an ongoing investigation, so I am denying this—if there was/is an arrest that would be releasable
3. Audio, it was an internal report therefore no radio transmissions exist
4. CAD entry screen shot, no information is releasable under title 47 as this is an ongoing investigation, so I am denying this-again if there was/is an arrest this would become releasable
5. Inter office emails, none on police side, if there were on Municipal side they would not be releasable as it involves internal personnel matters under title 47

Any other questions let me know
