DRUG INFLUENCE EVALUATION

SUBJECT: Manuel Alvarez

DATE: December 8, 2013

AGENCY: Fairview Police Department

CASE #: 2013-007276

LOCATION: The subject was evaluated at the Fairview Police Department.

WITNESSES: EVALUATOR – Lt. Robert F. Ryan

BREATH TEST: .00% B.A.C. (Alcotest 7110)

NOTIFICATION / INTERVIEW OF ARRESTING OFFICER: The subject was arrested for Driving While Intoxicated pursuant to a motor vehicle stop.

INITIAL OBSERVATIONS: The subject's eyes were bloodshot and watery. The subject's movements were slow and his speech was raspy. There was an odor of burnt marijuana from his breath. He was cooperative.

MEDICAL PROBLEMS: The subject stated that he was not sick or injured and had no physical defects. No physical defects were observed and he stated that he played college football for Montclair State University.

PSYCHOPHYSICAL: ROMBERG BALANCE – There was a two-inch sway from front to back. The internal clock estimated 30 seconds as 15 seconds. Eyelid Tremors were observed. WALK AND TURN – The subject stepped off the line twice during the instructions phase. He asked once if he could start the test despite being instructed that I would explain the test and tell him when to begin. The arms were continually raised for balance and he stepped off the line nine times on the first phase. He stopped prior to making a turn and then asked what he should do next. The test was performed deliberate and slow. ONE LEG STAND – The subject swayed for balance and continually raised his arms for balance. The speech was slow and raspy. He counted to 17 with the right foot raised and 25 with the left foot raised. FINGER TO NOSE – He asked once if he could start the test despite being instructed that I would explain the test and tell him when to begin. He missed finger to nose on all attempts and used the middle of the finger. Eyelid Tremors were observed.

CLINICAL INDICATORS: The pupils were unable to converge on the Lack of Convergence. The Normal Total Range for the Pupils is 2.5MM – 8.5MM. The Room Light Range is 2.5MM – 5.0MM. The pupils were 6.0MM in Room Light. The Near Total Darkness Range for the pupils is 5.0MM – 8.5MM. The pupils were 8.5MM in Near Total Darkness. The Direct Light Range for the pupils is 2.0MM – 4.5MM. The pupils were 4.0MM in Direct Light. Reaction to Light was Normal. Rebound Dilation was observed. The Normal Range for the Pulse is 60 – 90 B.P.M. The Pulse was 94, 94 and 94 on three different attempts. The Normal Range for the Blood Pressure is 120 – 140 for the Systolic and 70 – 90 for the Diastolic. The Blood Pressure was 150 / 90. The

Normal Range for the Body Temperature is 98.6 degrees +/- one degree. The Body Temperature was 98.0 degrees. Muscle Tone was Rigid.

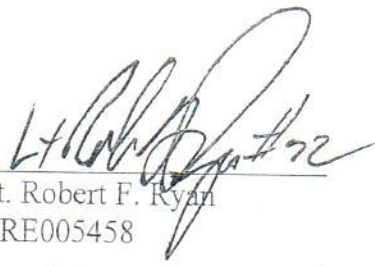

SIGNS OF INGESTION: The tongue was green. The upper Nasal Area was red and raw on both the left and right sides. There was a white substance observed in both the left and right upper nostrils.

SUSPECT STATEMENTS: He stated that he did not take any drugs recently.

OPINION: In my opinion as a certified Drug Recognition Expert the subject, Manuel Alvarez, is Under the Influence of Cannabis and unable to operate a motor vehicle safely.

MISCELANEOUS: None.

TOX SAMPLE: The subject provided a urine sample to the Fairview Police Department that will be analyzed by the New Jersey State Police laboratory.

Lt. Robert F. Ryan
