Bob

I apologize for this request coming late. I had sent you an email on Monday from my personal account and I put in the wrong email. It bounced back today.

Could you please attend Monday's workshop meeting? There are questions and concerns about the EMS date extension, policy and now closed door, as you can see below.

Again, sorry for the late notice. I have deleted you old email from all my contact lists.

Thanks  
Barb

Commissioner Mayer,

All I can say is that you have been off base for the last few days with you remarks via e-mail and texts. I do not feel comfortable with you being on the personal committee any further, let alone on the Board of Fire Commissioners itself. I believe you have forgotten what the true reason why we were voted in by the people. I am by law aloud to tape the closed session meetings so that will happen. As far as your other accusations, I will say that unfortunately you do not have your facts correct. If Chairman Bauer would like to contact me at anytime to discuss the issue I will be glad to take his phone call for meet with him. However until then please cease and assist with the e-mails and texts towards me, keep your personal agenda of attacking me and causing a hostile working environment away from me and my family.

P.S. To all those in attendance at last evenings meeting I would like to say that if I truly "He turned good things happening into personal battles, inappropriate comments and personal attacks" I honestly apologize. I ask for everyone to please take action and voice your opinions and concerns. We are here to fight in protecting LIFE and PROPERTY not fight toward towards each other. God Bless.

Stay Safe,

*Andrew Joseph Popso*

Charlie

Last night at the Company meeting, questions arose about extending the date for EMS officer letters. As expected it was beginning to get heated and questions were answered. President Wainwright reminded everyone that this is a District issue and to please attend next week's meeting. During this exchange, I stated that no names were mentioned in closed-door session last week, as that is my recollection. Chief Mullen was in agreement.

After this conversation, Commissioner Popso was asked to speak about the 911 piece of steel coming to us. He began his presentation calling you and I both liars and throwing Chief Mullen under the bus. He stated names were given out in closed session and there was a formal committee formed per your directions in closed and open session of District meetings. He also stated he will be audio taping all closed sessions for him to prove the lies that are coming out.

At this point, I do not feel comfortable with Commissioner Popso being secretary to the Board during closed session nor do I feel comfortable with him audio taping as it is closed door sessions for a reason. The audio tapes were to be used for note taking purposes only and are not to be used for his personal agenda.

As for his personal attacks on two of the commissioners in a public setting, it is unprofessional and embarrassing. If he has an issue with things being done or said, he needs to discuss them in the proper setting and not air his perceived issues publically. Last night was a sad night for our District and Company. He turned good things happening into personal battles, inappropriate comments and personal attacks.
